Emergency Department Chart (triage, MD notes, nursing) - Triage - Entry 1: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Emergency Department Chart (triage, MD notes, nursing) - Attending MD Note - Entry 1: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Emergency Department Chart (triage, MD notes, nursing) - Nursing Shift Note - Entry 1: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Emergency Department Chart (triage, MD notes, nursing) - Triage - Entry 2: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Emergency Department Chart (triage, MD notes, nursing) - Attending MD Note - Entry 2: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Emergency Department Chart (triage, MD notes, nursing) - Nursing Shift Note - Entry 2: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Lab Panels & Trending (CBC, CMP, ABG, Coags) - General Note - Entry 1: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Patient: Sarah Martinez MRN: MM-20240315-001 DOB: 1990-07-12 Page 6 of 6

Lab Panels & Trending (CBC, CMP, ABG, Coags) - General Note - Entry 6: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.

Imaging Figure Legends & OCR-friendly captions (thumbnails descriptions) - General Note -
Entry 1: This is a mock forensic-style entry created for AI testing purposes. Content is realistic but fictional. The patient identifier remains consistent: Sarah Martinez, DOB 1990-07-12, MRN MM-20240315-001. Clinical descriptions include vitals, medication timestamps, procedure details, observations, and clinician impressions. Formatting aims to be OCR-friendly with monospaced text, consistent headers, and light scanned artifacts on select pages.
